Superfund Division, MOKS Branch
11201 Renner Blvd.
Lenexa, KS 66219

Dear Mr. Sperry,

The Missouri Department of Natural Resources, Hazardous Waste Program (HWP), Superfund Section has received and reviewed the draft "Ameren Notice of Completion for Huster Substation Site." The following comments are provided for your review and consideration.

1. Please provide a map that contains of the Huster Road Substation, the Hayford Bridge Road Groundwater (HBRGW) site and the city of St. Charles' Elm Point wellfield.
2. Please provide a site description summarizing the operational history, releases of site contaminants of concern, and the relationship between the Ameren Huster Road Substation, the HBRGW site, and Elm Point wellfield.
3. Please describe the importance and requirements of the Ameren "Administrative Settlement Agreement and Administrative Order on Consent (ASAOC)", the actions taken and completed or not taken, including the sections discussed in the submittal.
4. Please provide the project description, goals and objectives related to applicable or relevant and appropriate requirements, the project scope and any changes made to the scope, and how these will be carried over and become an integral part of the future Remedial Investigation and Feasibility Study (RI/FS) for the Huster Road Substation site.

If you have any questions or concerns, please do not hesitate to contact me at the Missouri Department of Natural Resources, Hazardous Waste Program, P.O. Box 176, Jefferson City, MO 65101-0176, by telephone at (573) 751-1738, or by email at candice.mcghee@dnr.mo.gov.

Sincerely,

HAZARDOUS WASTE PROGRAM

Candice McGhee
